

Construction of upgrades and improvements to Middlesex County Utilities Authority's main trunk wastewater sewer piping located in Piscataway, New Jersey of which \$8,917,000 were financed by the New Jersey Environmental Infrastructure Financing Program (NJEIFP). The NJEIFP is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Environmental Infrastructure Trust (Trust) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Trust to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by increasing the service life of the Authority's wastewater main trunk sewer piping for residents and businesses in Piscataway and the townships surrounding same in Middlesex County.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
